PROFILE

Dedicated, self-taught tech enthusiast making a purposeful transition into the IT sector. While my formal degree is in another field, my technical knowledge is built on years of hands-on, independent practice. I am a fast learner and a natural problem-solver, eager to bring my adaptability to a professional IT environment.

SKILLS

Computer & Technical

- **VPS & Linux** - Managing Linux systems, services, users, permissions, logs, packages, networking and security. Familiar with SSH, systemd, troubleshooting, and routine server maintenance.
- **Cloud & Hosting:** Understanding of core web hosting concepts including shared hosting, VPS environments, server deployment. Familiar with cPanel, Apache, Nginx, Docker, WordPress, Elementor, Wix Cloudflare, Hostinger. Basics of AWS and Oracle.
